Pediatric Point Of Care Ultrasound

Training Course

Module Information

Module ID:	000
Module Category:	Basic
Venue:	King Abdullah Medical, Jeddah, KSA
Starting Date:	9– Dec – 2023
Duration:	1 day
Time:	08:00 AM – 04:00 PM
Credit Hours:	Under Progress
Presentation Form:	PPT
Style:	Didactic lectures and interactive hands-on training beside final project presentation by each trainee.

Course Director, Instructor & Trainer

Prof. Dr. Ahmed About Fotouh

- Prof of radio diagnosis - Consultant Radiologist KHH-Tabuk-KSA.
- Former Radiology training director, Radiology department Al-Hussein university hospital.
- Faculty of medicine Al-Azhar University, Cairo Egypt.
- Hospital management diploma & Total quality management in health care, American university in Cairo.
- National and international ultrasound trainer in MENA region.

Target Attendees

- Radiologists
- Physicians
- Ultrasound Technicians

Module Description

- The Pediatric POCUS course covers ultrasound basics, extended EFAST scans, and practical skills in lung, abdominal, and heart evaluations for emergencies. The session ensures participants gain confidence in both technical and interpretative abilities, concluding with an interactive digital post-course evaluation.

Training & Educational Objectives

1. Gain knowledge in diagnostic medical ultrasound basics, machine control, and transducer selection for pediatric POCUS, particularly in EFAST exams.
2. Demonstrate proper patient positioning, probe placement, and orientation, including identifying structures in FAST and EFAST views and recognizing transducer types for Pneumothorax Views.
3. Apply practical skills in lung ultrasound, detecting pleural lines, A-Lines, and B-Lines, and learn problem-solving in clinical scenarios encountered with pediatric POCUS.
